## DC24V smd lm301b 3030 led flexible strip tape with anodize aluminum extrusion profile

## Product Description

## What is the details of LED strip?

SMD LED flexible strip light adopts high brightness SMD3030 as the light source with qualified heat-resistant PCB. It is available in pure white, warm white, cool white, red, green, blue and yellow. 3led (12v dc) and 6led (24v dc) as a group and can be cuttable by different length which has the 3M adhesive tape on the back of the strip. It is widely used for indoor decoration, signs, back lighting and led lighting, etc.

Part No.	PSB602Z	Lumen/LED	60-65 lm

## ABOUT US

**PERFECT**

PERFECT LED LIMITED is a professional led manufacturer that engaged in researching, developing, manufacturing, technical guidance, sales and service of LED lighting. We have an outstanding R&D team and excellent sales & service team, with hard work and innovation these years, we have won a

good reputation as one of the best supplier in Led application and lighting field in China. Our products include LED strip, Aluminum LED bar, LED module, COB indoor light ,etc. Energy saving & green lighting which are widely used in commercial lighting decoration, indoor and outdoor using, home and project decoration.

#### FAQ

#### FAQ

**Q1: What is the Warranty for the LED strip?**

**A1:** For the led strips, we have 3 years warranty. If any quality problems on our side occurred in this period, we will take on the shipping cost and replacement.

**Q2: What is colour temperature?**

**A2:** Perfect-LED's LED Lighting offer LED strips in warm, natural, pure and cool white with colour temperatures measured in Kelvin (K). The lower the colour temperature is, the warmer the light given by the LED:

- Warm white = 2700K-3200K
- Natural white = 4000K-4500K
- Pure white = 6000K-6500K
- Cold white = 10000K-15000K

**Q3: What is CRI?**

A3: CRI is a figure which feedback the real objects colors.Higher CRI with higher cost. For LED strips ,the CRI is mostly 80Ra &95Ra &97Ra with higher cost.But there are some suppliers write a high data to attract clients,please note.

Q4: What is the DC Voltage tolerance for our LED strips?

A7: Their DC voltage tolerance is +/- 10%.

Q5: Do your LED strips emit UV light?

A8: Yes,we can do the wavelength as your request,such as 365nm UV chip, and you should never point an LED light into your eyes. The light is very bright and could cause damage.

Q6: Is there cheap shipping cost to import to our country?

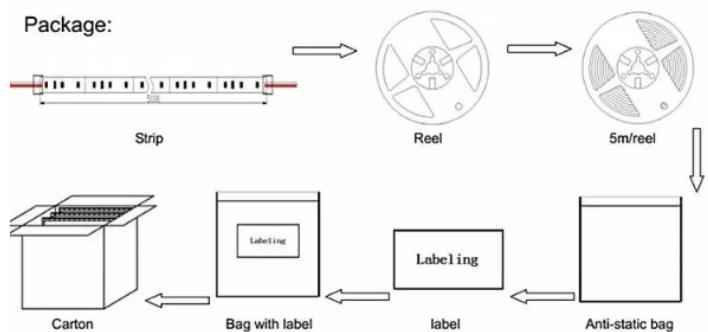

A9: For small order,express will be best.And for bulk order,sea ship way is best but take much time.  
For urgent orders,we suggest via air to airport plus our ship partner send to your door.

Q7: Can we get support if we have our own market position?

A10: Please inform us your detailed mind on your market demand,we will discuss and propose helpful suggestion for you,to find the best solution for you.
